SUPPORTS THE NATURAL DEFENCES

The high levels of the antioxidants vitamin E, vitamin C and essential fatty acids all help to reinforce the natural defences.

NERVOUS HORSES

EASY TO DIGEST

Fructo-oligosaccharides and live yeasts promote healthy digestion and optimise the absorption of the diet. Specific clays play a healing role, protecting the gastric mucosa.

PROMOTES CALMNESS

The association of tryptophan, magnesium, vitamins B1, B9 and C contribute towards calming nervous horses.

REDUCE THE REACTIONS TO FRIGHT AND EXCITEMENT

A range of non-heating energy-sources.
